About LanceSoft

LanceSoft is leading global IT Consulting and Services provider. Headquartered in Virginia. LanceSoft provides advanced information technology solutions and consulting services to a host of corporate clients in the BFSI, LifeSciences, Healthcare, Telecom, Manufacturing, Technology, Retail, and various federal, state and local government agencies, across crucial markets

Infrastructure Management Services

As enterprises scale their IT infrastructure to support business growth, managing global networks, databases and applications becomes a Herculean task which can overwhelm internal resources.

LanceSoft provides comprehensive services to help organizations optimize critical IT staff. With Infrastructure Management Services from LanceSoft, customers get the technology, reliability and control that their business demands without jeopardizing strategic priorities. LanceSoft's technology infrastructure management and outsourcing services ensure responsive 24x7 supports that can be scaled up as per business demands. LanceSoft's Balance Shore Delivery model and proven processes provide for seamless transitions and smooth project management. At the same time, it helps customers reduce focus on non-core functions and reduce costs.

LanceSoft's well defined Service Level Agreements (SLAs) provide customers with the assurance of consistently superior performance. Be it multiple service windows, availability or technologies, LanceSoft has the flexibility and agility to ensure that the customer's IT infrastructure remain responsive to their business needs.

The infrastructure management services enable customers identify efficiency improvement opportunities, design the right solutions for their operating environments, and then plan and implement a solution that delivers measurable performance improvement against quantified service level agreements (SLAs).

The infrastructure management services are used by several organizations around the world as a means of achieving large increases in availability and reliability for relatively modest investments in services and tools. Organizations using LanceSoft's infrastructure management services have achieved these goals by reducing the time required to resolve problems, improving capacity planning, streamlining change management, increasing business resiliency and better management of data center assets.

Network Management

The portfolio of network services provides customers with responsive, fully integrated networks that connect their enterprise and ensure dependable, highly secure, real-time access to people and information. Services include Network Audit, Network Architecture, Network Integration, Remote Network Outsourcing, Network Management and Support.

Helpdesk Services

LanceSoft has extensive experience in helping companies execute offshore strategies to reduce costs, enhance quality and improve customer satisfaction & experience. LanceSoft's helpdesk services help customers build streamlined, scalable IT support infrastructure. This range from automating existing Helpdesks to installing new ones, consolidating IT helpdesks to incorporating web-enabled support. LanceSoft's services include:

- Setup a help desk (Single Point of Contact) for IT users
